DETAILED ACTION

1. A request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed 10/24/07 in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's amendment and remarks and filed 10/24/07 have been entered.
2. Claims 99 and 108-111 are pending.
3. In view of Applicant's amendments all previous rejections have been withdrawn.
4. The following are new grounds for rejection.
5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 108-111 are rejected under 35 U.S.C. § 112, first paragraph, as the specification does not contain a written description of the claimed invention, in that the disclosure does not reasonably convey to one skilled in the relevant art that the inventor(s) had possession of the claimed invention at the time the application was filed. This is a new matter rejection.

The specification and the claims as originally filed do not provide support for the invention as now claimed, specifically, the antibody of any of Claims 108-110 and thus also the antibody of Claim 111 which depends from Claims 108-111.

Regarding the antibodies of Claims 108-110, Applicant cites Figure 13 and original Claim 51.

Claim 51 supports only an antibody comprising both SEQ ID NO:2 and SEQ ID NO:4, not an antibody comprising SEQ ID NO:2 or SEQ ID NO:4 as claimed. Figure 13 discloses only the protein sequences of the B11 variable chains. More specifically regarding Claim 110, original Claim 51 supports a human antibody but not any antibody comprising both SEQ ID NO:2 and SEQ ID NO:4.

7. Claim 99 is allowed.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Gerald Ewoldt whose telephone number is (571) 272-0843. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (571) 272-0841.
